# Community Service Systems

- Family Care
- Long Term Care Functional Screen (LTC-FS)
- Future

# Family Care

- Long Term Care
  - Provides services for
    - Elderly
    - Developmentally Disabled
    - Physically Disabled
  - Fully implemented in 5 Counties
  - Organized as an “at risk” managed care program, funded by “per member per month” capitation
  - Current enrollment is 7,300
  - Budget for fiscal year 2004 is 180 million

# Family Care

- Eligibility
  - Enrollment depends on eligibility determined by State systems
    - Web-based Long Term Care Functional Screen
    - CARES
      - Financial eligibility
      - Records enrollment
    - Medicaid MMIS
      - Automated eligibility and enrollment file
      - Drives capitation payments

# Family Care

- Resource Centers
  - Acquired own client tracking systems and database
    - Examples
      - SAMS
      - IRIS
      - Locally developed systems
  - State requires basic data reporting for client activities

# Family Care

- Care Management Organizations
  - CMO acquired systems
  - Primary business functions required integrated automated system support
    - Client database
    - Client Case Management
    - Individual Service Plans
      - Prior authorizations per service
    - Provider service claims processing
    - Fiscal management

# Family Care

- Encounter Reporting
  - Individual client service and cost data
  - Data captured from provider claims processing
  - HIPAA requirements
    - Standardized coding
    - Standardized definitions
    - Electronic transactions
  - CMOS provide data extracts from their claims system

# LTC - FS

## Long Term Care Functional Screen

- Screen determines functional eligibility for Family Care and Medicaid Waivers
- Statewide implementation over the next year
  - COP/W
  - CIP
- Web CT course
- Regional training

**Web Address:** <http://www.dhfs.state.wi.us/LTCare/FunctionalScreen/INDEX.HTM>

# LTC - FS

## Long Term Care Functional Screen

- Additional Uses for the Screen
  - Children's eligibility
    - Family Support
    - Katie Beckett
      - Nurse Consultants now trained
      - 14 pilot counties currently in training
    - Waiver for DD, ED & PD
    - Non-waiver severe emotionally disturbed (SED)
  - AODA/Mental Health
    - System design in progress
    - Pilot in 2004
  - Medicaid Personal Care

# Future

- Expansion/sharing of state developed systems
  - Functional Screen tools
  - Resource Center operations support
  - Streamline eligibility and enrollment
  - Next generation MA MMIS
    - Prior authorization of client services
    - Provider claims processing functionality
  - Encounter data reporting
  - Enrollment and capitation payment processing
  - Provider database
  - Access to State central data
